Exploring Power BI

- Three components of Power BI

- Typical Power BI Project Workflow

- Power BI Data modelling languages

Exploring Power BI

- Three components of Power BI

- Typical Power BI Project Workflow

- Power BI Data modelling languages

Exploring Power BI

- **Three components of Power BI**

Power BI Desktop

- It is Desktop Power BI application.
- Power BI Desktop is the development tool available to data analysts and other report creators
- Power BI Desktop is available to download for free either through the windows store or directly online.

Power BI Service

- It is cloud based online platform.
- Power BI service allows you to organize, manage, and distribute, your report.
- Power BI One can access Power BI service at app.powerbi.com with a work account or school account.

Power BI Mobile

- It is mobile version of Power BI.
- It allows consumers to view the report from the mobile itself.
- One needs to create mobile version of the report as well to view from mobile also.
