

Summary

- Experienced programmer with **8+ years** of relevant experience in the field of **SDLC** with **5+ years'** experience in **Snowflake & Matillion** along with **4+ years** relevant experience in the dashboarding story using **Power BI & Tableau** with the main concentration on **data analysis, data migration & visualization techniques** using data-driven tools & techniques by working on various **optimization techniques** and help to deliver project requirements through excellent problem-solving capabilities
- Strong knowledge of **Data Warehousing & Data Integration** using **SQL, ETL(Matillion & Wherescape)** along with **Python**
- Solid understanding of **Data modelling** and **architecting** skills including solid foundation in **data warehousing concepts, data normalization, and dimensional data modelling** using **data vault design**

Objective

- Seeking a **Senior Data Engineer** role to leverage my technical expertise and problem-solving skills in **developing innovative data engineering solutions**. With an advanced understanding of **analytical, statistical, and algebraic** methods, combined with **data migration techniques**, I aim to drive **seamless data integration and deliver insights** that support business growth and solve complex business challenges.

Work History

2024-11-27
Current

Senior Data Engineer
Tiger Analytics

- Designed and **implemented a framework to automate** the **conversion of Alteryx workflows** into **Snowflake-compatible SQL CTEs**.
- Developed Python scripts to dynamically extract and transform **XML configurations** for various **Alteryx tools**, including **Formula, Multi-Field Formula, Multi-Row Formula, Filter , Tile, DateTime, Text-to-Columns,etc**
- Built **data warehousing solutions with Snowflake** using **dimensional modelling techniques**, enabling efficient storage and retrieval of structured data for diverse reporting needs across departments.
- Create and implement **ETL mappings, transformations, and workflows** using **Matillion & Snowflake** tool to **extract, transform and load data** from various **sources** into **target systems**.
- Optimize ETL performance** and provide **technical guidance** to **improve ETL processes** ensuring Snowflake compatibility.

2024-04-08
2024-10-31

Lead Data Engineer - iAI
Intellect Design Arena

- Work collaboratively with cross-functional teams, including **database administrators, data architects, business analysts, and developers** to ensure effective **data integration and data quality**.
- Work with **business analysts and stakeholders** to understand **data requirements** and design **ETL processes** using **WhereScape RED ETL** tool.
- Develop and maintain **ETL workflows, scripts, and data integration solutions** to ensure **data consistency, accuracy, and reliability**.
- Create and implement **ETL mappings, transformations, and workflows** using **WhereScape RED ETL** tool to **extract, transform and load data** from various **sources** into **target systems**.
- Monitor ETL jobs and troubleshoot** issues related to **data integration, data transformation, and data quality**.
- Develop and maintain documentation** related to **ETL processes** and **data integration** solutions.
- Stay up-to-date** with **industry trends** and **best practices** in **ETL development** and **data integration**.

2023-06-08
2024-03-29

Technical Analyst – Data Analytics | Data Engineer
Coforge

- Worked as a senior technical analyst under a hybrid role In understanding client requirements as a part of **Run & Support - Data Analytics** team.
- Designed and optimized scalable ETL pipelines** using **Snowflake** and **PostgreSQL** to handle complex data workflows, enabling seamless data **ingestion, transformation, and processing**.
- Leveraged **Matillion** and **Airflow** to implement robust data transformation processes, supporting dimensional modelling for analytical use. This framework improved data reliability and supported self-service analytics for business users.
- Integrated data pipelines with **PowerBI** and **Matillion**, enhancing reporting capabilities and enabling interactive dashboards for data visualization. Collaborated with stakeholders to define KPIs, which led to improved data-driven decision-making.
- Troubleshoot and resolve data-related issues in a timely manner
- Helped in preparing business requirements documents in understanding the functional and architectural design along with the process flow..
- Responsibilities involved resolving various issues pertaining to **POWERBI** along with the **Adhoc Data Analysis**
- Helped in identifying various issues with respect to Dashboarding in **POWERBI** and optimized it.
- Worked extensively on large datasets involving both **structured** and **semi-structured** data
- Experience in handling semi-structured data (**JSON, XML**) using the **VARIANT** attribute in Snowflake

Anand Kumar Jha
Senior Data Engineer
@Tiger Analytics |
Matillion AI Certified

Contact

Address:
Pune, Maharashtra, 411036
Phone: +919008276611

DOB: 23-09-1990
Personal E-mail : anandjha_1990@yahoo.com
Linkedin: <https://www.linkedin.com/in/anandjha90/>
GitHub: <https://github.com/anandjha90/>

Technical Skills

- Snowflake
- SQL
- PostgreSQL
- Power Bi
- Tableau
- Matillion
- Alteryx
- FiveTran
- Wherescape RED
- Python : Pandas, Numpy, Scipy, Scikit-Learn, TensorFlow, Matplotlib, Seaborn, Plotly,spaCy, NLTK, Transformers, PyTorch
- Statistical Data Analysis
- R Programming
- AWS
- Machine Learning
- Natural Language Processing
- Data Visualizations
- Exploratory Data Analysis
- Spark

Tools & Software

- Helped in implementing end to end multiple data migration solutions and improvements in the current design process involving **WHEREscape & Matillion** as an **ETL** tool.
- Handled **scheduled** jobs using **Matillion,Wherescape & Airflow**
- Resolves issues with respect to **Data Vault** Design in **WHEREscape**

Assistant Manager – Data & Quality Data & Analytics

Unilever

- Advanced Reporting and Visualization:** Integrated data pipelines with **Tableau** and **Citus**, enhancing reporting capabilities and enabling interactive dashboards for data visualization. Collaborated with stakeholders to define KPIs, which led to improved data-driven decision-making.
- Cross-Functional Collaboration:** Worked with data architects, analysts, and product teams to develop solutions aligned with business needs, reducing data delivery timelines by 30% and optimizing data accessibility.
- Worked as an automation specialist in order to automate various **POWER BI Dashboards**, thereby decreasing the turn-around time and thus enhancing the overall view.
- Responsible for architecting and implementing business intelligence solutions around Snowflake Data Warehouse.
- Able to design, develop, and maintain **ELT/ETL** pipelines in and out of data warehouse using combination of **Python**, data build tools (**DBT**),**Matillion** and **Snowflakes SNOWSQL**
- Understanding the business use case of various teams operating across under **Data & Analytics Quality Team**
- Design, Develop, and maintain data base objects like **tables, views, functions, stored procedures, and scripts** in **snowflake**.
- Troubleshoot and resolve issues related to **Matillion jobs** and **workflows**.
- Analyzing End to End Data Pipeline in **Azure Data Factory** and integrating under a single dashboard so as to automate the process.
- Worked on identifying **bugs** in the current **Central Data Quality framework** and helped the team in **optimizing** it.

Business Consultant - II

EXL Service

- Worked as a Lead Data Analyst for **Prudential** as a client where data have been mapped from **SQL WORKBENCH** to **AWS REDSHIFT cluster** along with data quality work using **AWS Glue Crawler** and **lambda functions** for automating the business use case.
- Configure, manage, and maintain the **Matillion ETL** platform.
- Monitor system performance and optimize **Matillion jobs** for efficiency.
- Implement best practices for data transformation and loading.
- Worked as a Consultant for **Western Union** as a client in helping in their business requirements delivery through data acquisition, analysis and driving insights through machine learning model developments, **KPI** reporting and driving business to a higher level.
- Developed a complete **POWERBI Dashboard** for the **AUSTRALIAN** region for the client **PROFITABILITY** analysis

Developer & Instructor

iNeuron.ai

- Worked as a developer as a Data Analyst so as to create meaningful insights from data & thereby creating content & developing applications for the company.

Fellowship

Alphaa AI - Online

- Started learning creating a story by designing dashboards to showcase data visualization in Excel

Data Scientist Intern

Rapid Pricer B.V,Remote Work

- Worked for a month and designed a fully functional dashboard in Excel & Tableau.

Online Post Graduate Data Certification Course

Purdue University in partnership with Simplilearn & IBM

Associate Software Engineer

Manhattan Associates India Development Centre, Bangalore, Karnataka

- Took care of complete backend development using Spring & Hibernate framework in order to expedite supply chain operations.
- Designed a UI using HTML & Javascript.
- Interacting with the consultant to understand the project and finalize its scope.
- Development of modules based on functional specification and design documents.
- Co-ordination with the testing team for fixing bugs.
- Tech document and delivery notes preparation.
- Resolved supply chain problems and provided exceptional client support

- Eclipse
- Jupyter
- R Studio
- Microsoft Azure Studio
- Tableau
- Power BI
- MS Office
- Jenkins
- Git
- BitBucket
- Jira
- Stash
- Service Now
- Confluence

Cloud Technologies

- SNOWFLAKE
- AWS - S3,EC2,Crawler,Glue,lambda
- Airflow
- Matillion
- Wherescape
- Azure
- Data Modeller - ERWIN

Software Development Methodologies

- Waterfall
- Agile
- Scrum

Languages

- English
- Hindi

Interests

- Marathon Runner
- Exploring Places
- Photography

2014-11	Assistant System Engineer Trainee <i>Infosys, Mysore, Karnataka</i> - Hands on Training on SAP ABAP Domain coupled with basic programming knowledge on C,C++,Java,SQL and Software Engineering - Completed one real life project and implemented successfully on SAP ABAP tools.
2015-04	

Education

2025-07	PhD in AI & ML <i>Will commence PhD program from IIT Bombay from July 2025 onwards</i>
2029-06	
2022-04	M.Tech Data Science & Engineering <i>Completed Master's program from BITS PILANI under Work Integrated Learning Programme (WILP) with 8.5 CGPA</i>
2024-06	
2020-03	Post Graduate Program: Data Science <i>SimpliLearn In Partnership With Purdue University in collaboration with IBM - Online</i>
2020-12	
2010-08	Bachelor of Engineering: Electronics & Communications <i>PES Institute Of Technology - Bangalore with 8.15 CGPA</i>
2014-07	
2007-08	All India Senior School Certification Examination: PCM & CS <i>Jawahar Vidya Mandir Shyamali - Ranchi,Jharkhand with 86.7 %</i>
2009-05	
2006-07	All India Secondary School Examination: Science & IT <i>DAV Kapildev Public School - Ranchi,Jharkhand with 94% marks</i>
2007-05	

Accomplishments

- **Snowflake Super Data Hero for 2025**
- Trained more than **3000+** candidates across the world on Data & Analytics domain in helping them acquire skills such as **SQL, PYTHON,R, STATISTICS, POWERBI , TABLEAU, EXCEL,SNOWFLAKE,MATILLION & WHERESCAPE RED** and be industry ready.
- **RESEARCH ON SMALL SCALE NANO SATELLITE PI-SAT UNDER CORI LAB (PESIT)** where I was actively involved in project requirements in order to successfully develop **NANO Satellite**, which was later sent to **ISRO** for launch.
- Completed training programme in **Solar Field Technology, PLC and Wireless Technology**, at **Indian Institute of Technology, Mumbai** and made an efficient solar charger with **74%** efficiency.
- **First Class with distinction** in all semester while pursuing my **masters degree**.
- **First Class with distinction** in all semester while pursuing my **engineering degree**.
- Published paper under **International Journal of Innovative Studies in Sciences and Engineering Technology (IJISSET)**
- Scored **299** in **GRE** and **90** in **TOEFL** and attained **above** world average under **writing & speaking** section in **English Proficiency**

- **Passionate Cook**
- **Playing Badminton**
- **Learning New Technology**
- **Teaching & Mentoring**

Certifications

- **Matillion ETL Foundations & AI**
- **Post Graduate Course In Data Science.**
- **IBM Watson For Chatbots**
- **Snowflake Foundations**
- **Microsoft Azure Machine Learning Foundations**
- **Business Analytics with Excel**
- **PGP – Data Science with R**
- **Statistics Essential for Data Science**

Additional Information

- **YouTube - ANALYTICSWITHANAND | ROADSTRIKER**
- **Marathon Runner**
- **Certified Career Counsellor & Mentor**
- **Member of World Vision India (NGO) and sponsored a girl child**
