WORK EXPERIENCE

Power BI Developer

Jan 2021 - Oct 2024

ICEICO Technologies Pvt Ltd, Nagpur, Maharashtra, India

Project: Retail Data Analytics Report

Duration: Jan 2023 - Oct 2024

- Ingested and processed raw data from AWS S3 using Matillion ETL workflows.
- Automated ETL pipelines to transform and load data into Snowflake for efficient analysis.
- Ensured data quality and consistency through robust validation and cleansing processes.
- Designed and optimized Snowflake database schemas to enhance analytical query performance and reduce processing times.
- Leveraged Snowflake's scalability features to efficiently manage large volumes of retail data.
- Created interactive Power BI dashboards to track KPIs such as inventory turnover, sales trends, and customer segmentation.
- Implemented advanced DAX calculations to analyze metrics like gross margin, sales growth, and product performance.
- Delivered dynamic visualizations with drill-through functionalities to support strategic decision-making.
- Collaborated with retail operations and marketing teams to gather requirements and deliver customized insights.
- Presented data-driven insights to executive leadership, driving strategic initiatives for retail optimization.

Project: Sales Data Analytics Report

Duration: Jun 2021 - Dec 2022

- Designed and implemented ETL workflows to ingest data from AWS S3 into Snowflake, optimizing data integration processes.
- Automated data pipelines to minimize downtime and ensure seamless data updates for reporting.
- Optimized Snowflake database schema to enhance query performance and improve data storage efficiency.
- Developed interactive Power BI dashboards showcasing key performance indicators (KPIs) such as sales revenue, customer retention rates, and regional performance.
- Designed dynamic visualizations using DAX for ad-hoc analysis and drill-through capabilities.
- Delivered actionable insights to stakeholders, enabling data-driven decision-making.
- Partnered with sales and marketing teams to define requirements and refine report designs.
- Conducted training sessions for end-users to maximize the effective use of Power BI dashboards and tools.

SKILLS

AWS | Matillion | Snowflake | MySQL | Power BI | DAX | Tableau | Python | Excel

EDUCATION

BE Mechanical Engineering

2014

Sant Gadge Baba Amravati University

CERTIFICATIONS

- Matillion Data Productivity Cloud Foundations Certification
- Matillion ETL Foundations Certification

EXTRA CURRICULAR ACTIVITIES

- Executed the planning and organization of multicultural festivals, featuring 20+ performances and interactive exhibits; engaged a diverse audience of 1,000+ attendees, fostering celebrating cultural heritage.
- Attended seminars focused on core technical subjects, enriching knowledge base during college, resulting in a 20% improvement in academic performance.
- Spearheaded a community outreach initiative as a COVID volunteer, organizing and delivering 100+ care packages to vulnerable populations, ensuring access to food, hygiene products, and essential supplies.
